

Description

This universal motor oil is produced with special base oils that have a high natural viscosity index, to which additives are added to obtain the following properties:

- robust protection against wear, corrosion, and foaming
- reliable lubricating film at very high temperatures
- good detergency and dispersion
- high and stable viscosity index
- strong resistance to oxidation
- fast cold starting

Application

A universal motor oil, recommended for use in petrol and diesel engines, both naturally aspirated and turbocharged, in passenger cars and light commercial vehicles that require the specifications stated below.
